EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Eve L. Frank on November 12, 2004.

The application has been amended as follows:

Cancel claims 1-2, 10, 16-17, 19, 22, 25 and 28.

The following is an examiner's statement of reasons for allowance:

Applicants state that the protein of SEQ ID NO:1 is a threonine aspartase called Taspasel and provide Hsieh, et al. (AA) and a supposed alignment to show this. Although applicants provided nothing showing that the sequence aligned (C20orf13) was the Taspasel of the instant reference, the examiner looked in the Uniprot database and found that this was true. Although the specification only characterizes the enzyme as a human hydrolytic enzyme, the showing that it is in fact Taspasel overcomes the 35 USC § 101 rejection. As for the 35 USC § 112 first paragraph enablement rejection, applicants have amended the claims to overcome this rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles L. Patterson, Jr., PhD, whose telephone number is 571-272-0936. The examiner can normally be reached on Monday - Friday from 7:30 to 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ponnathapura Achutamurthy, can be reached on 571-272-0928. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
